Synopsis

Become A PRO Now!!!!UPDATED VERSION!!!!This book contains proven steps and strategies on how to easily make the most of the PokÃ©mon Go app and have fun catching PokÃ©mon. PokÃ©mon Go is a new app, recently released by Niantic Inc. It has become incredibly popular within just the first few weeks of its release. Its appeal may be due to a few key qualities of the game: it's nostalgic due to its similarities to the old PokÃ©mon games and is innovative in the use of technology by utilizing GPS (Global Positioning Systems) to track where you are and AR (Augmented Reality) by using your camera to make it appear as if PokÃ©mon are in front of you in the real world. Good book but most of the stuff is on Utube...so save your money...

This is the best guide ever. The kids will surely like it and the tips are astounding. In spite of the fact that there aren't many, yet trust it they are exceptionally useful. Recommended to all.

Fast, useful read. Worth the time and money.

Awesome!!

great

when Pokemon game recently hit the top charter there were many guide released and this Guide is one of them. I feel this guide is good for the Generation one player those who don't know much about the Pokemon go game or in a bit advance level in the game. This Book has some good tips at the end and the step by step detail to capture the creature make this book a good guide to learn and play pokemon go . I would recommend for people who are in beginner stage or in little advance stage.

This book has no more information than you can get off the numerous websites regarding the game. No color illustrations, and no real insight into the game. For the price, this is a joke. There are so may better books out there on the game, not to mention countless websites or You tube videos with the same tips .
