Customer Reviews

I've thrown hundreds of parties but always seem to be scrambling around at the last second trying to handle details I forgot about. I was lured in by the title that listed "printable checklists" but was pleasantly surprised to find so much more! I love the easy to follow format and the smart way the chapters are broken out. Here is also a section about planning portions for each type of food and

cocktails and budgeting. It's not full of a lot of redundant fluff either. It's all relevant and useable.

I love this book! It makes everything simple and clear. The descriptions of the various types of events are easy to follow. Have always thought party planning was too overwhelming to even think of beginning. But Ms Lang makes it doable. Love the lists - they are immensely helpful. I am truly inspired to plunge into my first big event - a birthday party for a dear friend. Thank you Linda!Pat Hyduk

I truly enjoyed this book. I was always having trouble figuring out the menu, let alone the decor, and this book was very helpful in eliminating my headaches! It's an extremely easy read and the printouts are especially helpful as you implement your party plan. This book is most helpful to the inexperienced party planner, but don't discount the fact that even a seasoned veteran could use a few helpful tips every now and then! Well worth the money, so go buy it!!

Good ideas, but I was hoping for a more indept read. Party planning can become expansive, time consuming as well as a headache that can lead to drinking. "LOL!"

Offers a step by step way to host small gatherings. Not geared towards the business aspect of party planning, but the entertainment details.

I bought this book to help me plan my birthday party which is coming up soon. I like the suggestions and recommendations, especially the week by week list of things to do. Before reading the book I felt like I was facing an insurmountable task but now I feel much more at ease with what needs to be done. I would definitely recommend.

While reading I never actually realized how much planning it takes to create and host a party or event with four people or more as guests. The good thing is that the author puts it all in perspective. Worth picking up your very own copy.

This is a very basic party planning book - no new information for me. My biggest disappointment was that there weren't any pictures.
