Pressure Ulcer Prevention Toolkit

Synopsis

Despite increased attention to the pressure ulcer problem and evidence that indicates many pressure ulcers can be avoided with proper care, pressure ulcers very common in various health care settings around the world. In response to this global health care issue, the Pressure Ulcer Prevention Toolkit and accompanying CD of tools provides practical and effective tips, strategies, forms, and illustrations for preventing and mitigating pressure ulcers. Read about theoretical and practical information needed to immediately incorporate improvements to your organization's pressure ulcer prevention initiatives or develop a new program based on the following: Care Challenges and Prevention: Users will be able to make an informed decision and apply safer care based on informative evidence-based guidelines and recommendations for the prevention and treatment of pressure ulcers National Patient Safety Goal and Accreditation Standards: Staff will learn how to become compliant with The Joint Commission's National Patient Safety Goal related to pressure ulcer care and Joint Commission International standards and requirements Assessment and Reassessment: Staff will become knowledgeable on care protocols to improve assessment and reassessment methods for pressure ulcers Sustaining Improvements: Users can create, benchmark, compare, and implement policies and procedures developed by organizations from around the world Educational Tools: Use the accompanying CD to develop an educational training tool for staff to immediately and effectively incorporate improvements to your organization's pressure ulcer prevention activities
