Synopsis

James Stewart's CALCULUS: EARLY TRANSCENDENTALS texts are widely renowned for their mathematical precision and accuracy, clarity of exposition, and outstanding examples and problem sets. Millions of students worldwide have explored calculus through Stewart's trademark style, while instructors have turned to his approach time and time again. In the Eighth Edition of CALCULUS: EARLY TRANSCENDENTALS, Stewart continues to set the standard for the course while adding carefully revised content. The patient explanations, superb exercises, focus on problem solving, and carefully graded problem sets that have made Stewart's texts best-sellers continue to provide a strong foundation for the Eighth Edition. From the most unprepared student to the most mathematically gifted, Stewart's writing and presentation serve to enhance understanding and build confidence.

The late James Stewart received his M.S. from Stanford University and his Ph.D. from the University of Toronto. He did research at the University of London and was influenced by the famous mathematician George Polya at Stanford University. Stewart was most recently Professor of Mathematics at McMaster University, and his research field was harmonic analysis. Stewart was the author of a bestselling calculus textbook series published by Cengage, including CALCULUS, CALCULUS: EARLY TRANSCENDENTALS, and CALCULUS: CONCEPTS AND CONTEXTS, as

well as a series of precalculus texts.

Got my son through the class, what more could I ask?

Just right! Love the loose format! Much easier to use

Looks good. Web sign-in information was included. Says it gives me "Life of Edition" access. Based on other reviews, I think this is better than a 1 semester or 2 semester code. Very satisfied, 5 stars.

Great for use in binders, folders, or just about anything. I separated the book by semesters, freeing up space in my binders. Overall, wonderful book, very helpful, and the online tools are very helpful.

Product arrived brand new with shrink wrap still in tact and also had the access code. Trustworthy seller!

Very satisfied!

Came as described (from the seller I bought from). Brand new. Access code included. Obviously if you buy used you probably won't get a code. BUT find out if you actually need the access code first! Anyway, this book is too expensive.

The software and book company don't work together and just blame each other for any problems.
