Customer Reviews

Annie Heminway, a French native, teaches at the New York University School of Continuing and Professional Studies. She is a Chevalier de l'Ordre des Palmes Académiques and the author of numerous French language-learning titles.

Perfect book to practice French grammar. Comes with a great iPhone app where you can practice

even more and record the results. I love this book!

Clear instructions good practice.

A good review soup to nuts for those of us who did not learn French in school. There are always gaps in knowledge and this is a good systematic way to maybe catch those things you might have missed in a hodgepodge language education.

Very similar to other grammar reviews but with a host of exercises that assist memorisation and deep entrenchment so that speaking/writing grammatical French becomes almost second nature with a little practice. This is not for beginners, but very useful for intermediate students of French. Good value, and recommended.

Love the mix of activities in this Grammar book. I like this author's workbooks better than others. She has you write in complete sentences sometimes which is helpful. Topics cover verbs, verb tenses, pronouns, adverbs, adjectives, some vocabulary, numbers etc. There are 260 pages of exercises, plus two glossaries and an answer key totalling 304 pages. So, you get a lot of exercises and material for the money. This is a great review book. It starts out with more simple concepts (present tense of verbs) and works up to the more difficult topics. So, you can fill in the holes in your knowledge. It has a clear and pleasing format and organization. It's fun to use. I use it to supplement the French classes I take during the year. The author is a French native and teaches French at NYU's continuing education program, so she knows what works in the classroom.

This is a great book for revising and correcting errors, not so much for beginners, more for those who want to improve their language skills

A really comprehensive and practical aid to improving your French. Wish I would have bought it before now. I needed the verb tense help and this does the trick.

This book is easy to read with large pages. It explains well grammatical matters and how to express correctly. I am only in the beginning of the book but I enjoy it and do the exercises with no feeling of dullness.
