Rhinoceros Success: The Secret To Charging Full Speed Toward Every Opportunity

Synopsis

Go get the life you want. Be a Rhinoceros! There is something dangerous about this book. Something big. Something full of power, energy and force of will. It could be about you. You could become three tons of thick-skinned, snorting hard-charging rhinoceros. It is time to go get the life you want

Customer Reviews

All I ask is that if you decided to become a rhinoceros, commit yourself to it and go all out!

Scott Alexander is the author of 3 books: Rhinoceros Success, Advanced Rhinocerology and Rhinocerotic Relativity. Written when Scott was 23 years old, the rhino books have now sold over 3 million copies. Today Scott speaks worldwide, presenting his unique and humorous philosophy of success and motivation. Over the last 23 years, he has been involved in such diverse businesses as African art, fossils, and music Dave Ramsey is America's trusted voice on money and business. He's authored five New York Times best-selling books: Financial Peace, More Than Enough, The Total Money Makeover, EntreLeadership and Smart Money Smart Kids. The Dave Ramsey Show is heard by millions of listeners each week on 575+ radio stations. Follow Ramsey on Twitter at @DaveRamsey and on the web at daveramsey.com.

As Dave Ramsey said it, this is a silly book with a powerful message. It is a must read for anyone

needing motivations to move forward with their career or change their life. It gave me a new outlook in all aspects of life. I would recommend this book to all my friends.

My hands down all time favorite motivating personal growth book! It's short, sweet, and to the point. It's a little silly but it's supposed to be and honestly quite refreshing to laugh a little while getting inspired since most personal growth books are so serious. I read this book at least once a year - extremely motivating must read!

I LOVE, LOVE this book and all of the other books that Scott wrote. I gave copies to all my children and their friends when they were growing up. I do believe that if you invest in yourself with this book your life will change for the better. I am a Sales Trainer, This is a book for professional as well as for personal success. It is a fast read with a very Powerful message. If you have young children or teenagers this is a must to help them on the road to success in their life. Thank you Scott! I am a Rhinoceros! I have the damn torpedo's attitude. I can't wait to get up in the morning and start charging.....

This book is great fun! Recently challenged at a Tom Ferry Summit to start reading 10 pages out of a book each day, I came home and broke out books I have intended to read for some time. This was the first one! This is a light hearted book about being a better version of you. I would not call it a normal "How To" book as it pokes fun at who we are as "cows" and encourages you to be a Rhinoceros. Faith, Family, Finances, in everything charge ahead and live the life you are meant to live. I think my favorite chapter was Rhino Games. Heading out to play one now! Hope you enjoy this book as much as I did!

A must read for all. My all-time favorite success/motivational books. I don't keep it on my bookshelf, I keep it in my fire proof safe with all of my other important documents. Seriously, I need to buy another copy so my children don't have to fight over it when I pass on.

This is hands down one of my favorite books of all time. After listening to the audiobook dozens of times, I had to snag a hard copy of the self-help classic: Rhinoceros Success. Although it's a bit silly at times, the simple message hits you like a family of charging rhinos and leaves a lasting footprint. Scott Alexander has put out a book that nearly all ages can understand and put to use immediately. I also recommend the other Rhinoceros books penned by Scott Alexander: "Rhinocerotism" and "Rhinocerotism 2: The Rhinoceros Way to Success".

and "Advanced Rhinocerology".

I am reminded of the saying "eat the fish and spit out the bones" when it comes to processing things as a way of describing the act of utilising the meat of a lesson while discarding the excess fillers. This book is full of fillers. I have had to read many motivational and leadership books during my time in college and I have to say that this one is very disappointing to say the least. I found the author to come across as haughty and rude in the language he used for "motivating" his readers and a coward in the very few places where he makes an attempt to share his religious beliefs. I gave it two stars because that is how many pieces of information that I actually felt I could use from this book.

I was given this book about 20 years ago. Liked it so much that I've recommended it. This time I purchased it for my niece. What can I say, I have the Rhino Spirit and now I believe my niece does too.
