I first discovered this author when I read *Hidden Wings*, and absolutely fell in love with the story. I bought this book immediately upon learning of its release because I love this series, as I do with all books by this author, including her *After Light* young adult, dystopian series, which is probably my favorite of her series. Major spoilers coming up if you have not read the rest of the books. Emma is a teenage girl that is orphaned in a horrible wreck, and moves to Alaska to live with an aunt she had no idea existed. Before she leaves she is attacked (and escapes) at the airport by a monstrous creature. Kade, sent by her aunt, is her companion on the trip to Alaska, and quickly becomes her love interest. Turns out, she is going to be changing to an immortal on her eighteen birthday, and she is surrounded by angel guardians. Her aunt is really her biological mom, and she also eventually meets her real father. There's a war going on between the Fallen angels, and the angels that guard Emma. There are also hideous creatures that spend their time trying to kill all those that surround Emma, called Darklings. The reason? There's a prophecy concerning Emma and the evil creatures don't want it to happen. This is all background from the first book as this is the last in this four book series. So much has happened by this point, and each book has been filled with an exciting series of events in evils quest to take Emma, and it's perfect for the young adult reader. This one starts shortly before Emma is to transform, and right after the end of the last book. Lucifer, father of Ethon, who is now bonded to Emma, has just made Emma promise to seal the bond with Ethon before her transformation, or he will kill all the people she loves. Since she loves Kade, the thought of living an eternity in hell with Ethon and Lucifer devastates her. And I am going to leave it at that. This book was filled with romance, action, battles, and deaths. Not everything works out okay with all, to say the least. There were twists and turns, and I was really upset with the author for awhile during part of this book. Since the whole last part of the book was non-stop action, I had to read that part non-stop, as well. Otherwise known as not being able to put it down. Cameo Renae knows how to write fiction for the young adult audience. She has written likable characters, heinous villains, and keeps the action flowing throughout. Romance in this series is sweet, and although there is a bit of lust, nothing sexual happens other than kissing, so this makes it perfect for probably ages 14 up. These books are so popular they always become international best sellers. I highly recommend them to young adults, and to all the adults that have fallen in love with this series as well, ones that just haven't read this one yet. On a side note, this author's book covers are all so beautifully done! (PureTextuality.com)

oh my holy heck! Bump this series right up to the top of my favorites list! And I can tell you right now I will be reading it again very soon! For the last book in the series (I seriously hope this is not the last book in this series!!!) it is fantastic! Full of action, and excitement and heartbreak! OH THE HEARTBREAK! and the laughter...I had tears I was laughing so hard. This book is true to the series, and wraps up everything in a way that is not rushed and absolutely beautiful and fantastic, and just the way it should be. Have you ever read a series, that when you look back on it, it just makes you smile and happy and all warm and fuzzy on the inside? Yah, that is this series! I have need to actually start it over again right now! Flawless finish to a series of awesomeness! P.S. Kade....you are the MAN! Why is he not winning all the "best book boyfriend of all time" awards?

Amazing finale to a great series! I am in love with this book. It was a great end to a series I had come to love. The resolution was fantastic and the characters were built amazingly throughout the series, but the best work on them occurred in this final installment. This is a YA paranormal romance series not to be missed. Cameo Renae has certainly made a name for herself in the writing world!

So, everything has lead up to this one moment, and I have to say Renae did not disappoint! This book had everything that one could ever want all folded into what felt like a short number of pages. There were twists and turns that had me both smiling and on the verge of tears (yes I get emotional about my books). Overall the ending was very different than I had in mind, but I don't really know how it could have ended any other way. I finished the book a few days ago and am still thinking about just how perfect it was. Renae you did a fantastic job with this series, and I'm ready to see what you will be writing next!

This series is an absolute MUST read! I was on the edge of my seat from the very first page. I read the whole series in a week as I could not put them down. The author has a serious talent for detail, that I actually felt like I was in the story. Cameo Renane You did an AMAZING job with this story line. The characters' personalities are wonderfully developed. Once I started this book I could not put it down, I had to know what happen next. This series is action packed & full of life; drama, love, terror, pain, demons, angels (both good & bad). So many emotions came up while reading. I highly recommend this series.

This book got really dark and complicated haha and that's saying something for a series that a good

section of one of the books take place in the Underworld! A lot of things we have been waiting for (Emma's transformation, her decision on who will be her mate, what her gifts will be . . . Etc) occur and the aftermath is a lot of destruction, people die (you've been warned) there is a wedding and it is absolutely stunning and I thought nothing could touch the description of the masquerade ball in one of the books of this series the wedding was absolute perfection! I could see where there might be other stories in the future but this book wrapped up most of the threads of the story lines that we have been following since the beginning of the series. Emma truly comes into her own in this book and her transformation from someone who was weak and broken to someone who can protect those she loves and stares down fear and laughs in its face is complete. She is a bright, brave beautiful heroine that we have seen glimpses of but now that's just what she is all around. It's not the love story that makes this a beautiful book but it's her journey that accomplishes that for me! I loved this series and I know it will be one I will come back to many times in the future!
