Kindergarten Countdown

Synopsis

"MY SCHOOL STARTS in one week so I have SEVEN DAYS to go. Mom says be patient, do not worry. But I can't wait! I'm in a hurry!" In this delightful book a little girl counts off the days by naming what she'll do in kindergarten. "I'll be ready, I'll be smart. I will get a running start. I'll say thank you, I'll say please. I will say my ABCs!" And deciding what to wear and what to take are all part of her preparation for that exciting first day. With bouncy read-aloud rhyme, bright, fun illustrations, and hidden objects to find on each page, Kindergarten Countdown gets children off on the right foot.

PreSchool-K • This cheerful story is just right for kindergarten-bound children and their younger siblings. It works equally well as a counting book and as a school-readiness primer. Often leaping or prancing, a little girl shares her excitement on every page as she starts with seven and counts down to the big day. Both the rhyming verse and the pictures are filled with humor and energy (the sleeping child counts "kindergarten sheep" that wear school backpacks). The computer-generated illustrations are detailed and vibrant. Because the format is small, this book is most appropriate for one-on-one sharing. • Barbara Katz, Parish Episcopal School, Dallas, TX Copyright © Reed Business Information, a division of Reed Elsevier Inc. The author of *Ready, Set, Preschool!* (2005) offers an equally cheery title for the kindergarten bound. In the week before she starts kindergarten, Lucy can barely contain her excitement. Bouncy, rhyming couplets describe how she plans and prepares each day, from imagining what she will bring to show-and-tell to choosing her confidence-boosting outfit ("my superhero sweater / that makes me feel / strong and better"). The computer-generated images, executed in strong geometric shapes and glossy, jelly-bean shades, offer plenty of opportunities for practicing basic concepts. The name of each day appears on each spread, an image of Lucy playing with blocks shows the whole alphabet, and a counting review of the numbers one through seven concludes. Simple, straightforward, and relentlessly upbeat, this energetic title is a welcome complement to the many entrées to kindergarten that focus on kids' anxieties. it was OK. i wanted it to explain the experience of first going to Kindergarten.

Sweet book to prepare for Kindergarten. My boys loved it and I ordered copies for several other friends.

I had to replace this book as the first one they "loved" to death. but we love counting and picking out all the interesting things in each picture. we also love the rhymes and it definitely matches the enthusiasm of our kindergartners.

Good for getting your kid excited for kindergarten.

The book is in great shape we received it yesterday

This is another book with kindergarten in the title that does not match the kindergarten of today. It is about play and not about academics...don't want to give kids unrealistic expectations so this is going back.

Great for my granddaughter who was a little apprehensive about leaving home all day. It helped her see what would really happen. She did wonderful her first day when she saw all her friends and like

kindergarten. She read it several times with her parents the week before she started kindergarten so it was perfect.

Getting ready for your first day of school is a very exciting thing, especially if you are old enough to go to kindergarten. Lucy is going to start school in only seven days and is in the kitchen looking at the calendar on the refrigerator. Her eyes are wide with excitement, but her Mom tells her to "be patient, do not worry." She's very excited and on Monday she is playing and talking to herself in her room. "I'll be ready, I'll be smart. I will get a running start. I'll say thank you, I'll say please. I will say my ABCs!" As the week goes by Lucy thinks of all the things she will do when she gets there and all the smart things she can already do. By Wednesday she is thinking of what she will wear. By Thursday she knows what she'll bring for "show-and-tell." She's marking off the days and she's keeping a very close watch on Monday, the day with the star on it. This little book, a perfect one for little hands, is simply marvelous. The rhyming text is adorable and the complimentary art work shows brings the excitement to the book. If you have a young one getting ready to go to kindergarten this is one fun book you won't want to pass up!
