The Oxford Introductions To U.S. Law: Constitutional Law

Synopsis

The Oxford Introductions to U.S. Law: Constitutional Law presents an accessible introduction to the enduring topics of American constitutional law, including judicial review, methods of interpretation, federalism, separation of powers, equal protection, and individual liberties. One of the most important functions performed by the American Constitution and the more than two centuries' worth of cases interpreting it is the allocation of decision-making. Professor Dorf and Professor Morrison frame many of these constitutional debates with this question of authority. When should courts rule that the Constitution takes some issue outside of the domain of ordinary politics? Should courts referee disputes between the branches of the federal government? Should they referee disputes between the states and the national government? Using what standards? This introduction to American constitutional law critically examines the work of the Supreme Court of the United States, which has resolved thousands of constitutional controversies based on the shortest national constitution on the planet. The authors also look beyond the Supreme Court, exploring the arguments for and against judicial review and various versions of popular constitutionalism.

"This is a sophisticated introduction to constitutional law and a rich blend of discussion of Supreme Court decisions and theories that drive constitutional debates. Analysis of cases illustrates theories of constitutional justice, and probing consideration of leading theories illuminates the deeper stakes of disputes and judicial rulings." -- Richard Fallon, Ralph S. Tyler, Jr. Professor of Constitutional

Law, Harvard Law School "It is hard to imagine a better primer on constitutional law. Perfect for law students, it is also invaluable to an audience seeking an accessible and provocative window into the mysteries of American Constitutional law. Rich in its comparisons with other judicial systems, lucid in its framing of the issues, it is simply tops in its genre," -- Barry Friedman, Jacob D. Fuchsberg Professor of Law, New York University Law School of Law

Michael C. Dorf is the Robert S. Stevens Professor of Law at Cornell University Law School. He has written over fifty law review articles and several books on constitutional law and related subjects. In addition, he writes a bi-weekly column for FindLaw's Writ and is founder and editor of DorfonLaw.org. Professor Dorf serves on the editorial boards of Legal Theory and Political Science Quarterly. Trevor W. Morrison is Professor of Law at Columbia Law School. He teaches and writes in the areas of constitutional law, federal courts, and national security law. Professor Morrison was on leave from Columbia in 2009 while serving in the White House as Associate Counsel to the President. Earlier in his career he was a law clerk to Judge Betty B. Fletcher of the U.S. Court of Appeals for the Ninth Circuit and to Justice Ruth Bader Ginsburg of the Supreme Court of the United States. He also served for two years in the U.S. Department of Justice, first in the Office of the Solicitor General and then in the Office of Legal Counsel. And he spent a year in private practice as an associate at Wilmer, Cutler & Pickering (now WilmerHale) in Washington, D.C. Professor Morrison received a B.A. in history from the University of British Columbia and a J.D. from Columbia Law School. He is a member of the American Law Institute.

Very informative. I'm not a law student. Just a plane college grad. The reading level is accessible to anyone and explains what judges must follow when deciding constitutional cases.

Dorf offers a pragmatic view of constitutional jurisprudence that airs both sides of contentious issues, and the topics are helpfully organized to build on one another. I'd definitely recommend the book, especially as a supplement to anyone in Dorf's Constitutional Law class, as it covers the same topics as that class in the same order.

Dorf is brilliant. Is he teaching at a law school?

This was a present to my grandson who is studying law at uni he is very pleased with it thank you

Good summary.

Thanks!
