Customer Reviews

While Stephen Hilson grew up in Michigan, an extended stay with his brother in Alaska resulted in a love affair with the Pacific Northwest. He soon discovered that he could combine this love with his skills as a photographer and writer to make a living. He was fascinated by folklore of each new region he explored by land or by sea, and he spent hours researching the history of each area. At the age of 39, Stephen Hilson died in Seattle after a fairly short battle with cancer, but his legacy of historical atlases lives on.

Taking a trip to Alaska in our boat and this will be the perfect guide.

Having done this trip by boat, as an Alaskan Commercial Fisherman, five times from Seattle to Kodiak I have to say, "this is the most Fun to follow, and Informative guide available." If you can find one, it is a Must Have for the entire trip, I'll add, the thought, even for someone doing a Cruise Ship passage, I would recommend both volumes, highly, for all the information included about the history of the areas you are traveling through, an amazing land, ...this Marine Atlas, tells it all, there are no others that come close
