Customer Reviews

Patricia Shehan Campbell is a Professor of Music Education and Ethnomusicology at the University of Washington. A certified teacher of Dalcroze Eurhythmics, she is widely known for her research on children's music, their musical development and the pedagogy of world music cultures. She is the author of SONGS IN THEIR HEADS, TEACHING MUSIC GLOBALLY, LESSONS FROM THE WORLD, and numerous research and pedagogical articles and chapters. Carol Scott-Kassner is a retired Professor of Music Education. She is an expert in musical growth and learning in young children. She is a co-author of three series by Silver Burdett Ginn; author of chapters in two editions of the HANDBOOK OF RESEARCH IN MUSIC TEACHING AND LEARNING; and co-author of MUSIC FOR THE ELEMENTARY CLASSROOM TEACHER. She is also known for her extensive leadership in music education.

I ordered this digital Textbook and it's awesome. You can highlight and even search for terms within

the book, and best of all, it's rented! So when I'm done It'll just disappear out of my library.

I really like the book. Tons of useful information and teaching techniques for new music teachers. Lots of songs for all grade levels. What I do not like is the website access is only good for 6 months after your initial log in and I am not sure if you can save the mp3's. I am waiting on Cengage to see if they will extend my website access as I did not realize this. Don't wait to log in!

Bought this book for class. The price was so much cheaper than the university bookstore. Great book with lots of information and teaching techniques. This book is on my bookshelf for when the time comes to teach elementary music education.

keeping this one for a reference

This book is very thorough and methodical in the teaching of music to young children. There are many suggested songs and methods of teaching various musical concepts and skills to children. It is also very informative about how to teach music. This is a great resource for me to use in the future. I highly recommend it to those interested in teaching music to children.

What I like about paperback is that it is lighter than hardcover and easier to read, take note, highlight, etc. I like the content of the book, but I dislike the design of chapters and layouts of the content. Shipped on time.

Over priced for a softcover with thin pages. Includes an online code that I'll never use.

Product is great, selling was terrible.
