Customer Reviews

Akbar gives you all the tools you need to succeed when building an amazing funnel, and he does it in the most genuine (and fun!) way possible. The book is to the point, and doesn't fluff anything up. It's something I will most definitely will be reading more than once. Akbar could've easily charged three times the price for the amount of value the book brings, but that's not the type of person he is. I would highly recommend picking up a copy and reading it right now!

This guy has proof that he has done what he claims. That is the type of person I want to listen to and learn from. This book is from personal experience. Read and implement for your own good.
