Customer Reviews

Jinnie Lee is a fashion and shopping contributor to Refinery29 and has written for Nylon, BAGGU, and MTV, among others. She has worked with coveted Brooklyn-based jewellery designer Erica Weiner and cofounded the literary site STET. Lee lives in Brooklyn. --This text refers to an alternate Paperback edition.

I use this book to help accessorize my Jewelry habit. It is a small book in size and in volume but it does the trick and I do use it and like it a lot. If you need help on wanting to know what bracelet to wear with what outfit this will do the trick;)

This book is so fun. I would cut out the illustrations and wear them if that made any sense. I first saw

it at SFMoMA. Not in a buying mood, I left it there, but couldn't stop thinking about. When it comes to fashion, I'm all about breaking the rules, but this book serves as a nice guide on how to wear old school and new school jewelry. It's a great gift for a geminista. I have two copies, so just waiting to give the 2nd to a deserving friend. I also adore the size. I think of it as a jewelry travel manual. Take it with you on a shopping trip or abroad. You'll never have to ask yourself, "Now how am I going to wear that?"

I love this book, which looks like a piece of jewelry itself, and have given it to friends. Now I know how to draw attention to the small diamond in a delicate necklace, and make clever use of all those pins I never wear.

for what it cost, I was a bit disappointed in the contents. these books are very small, actually quite cute to look at. I wasn't blown away by the ideas inside, but it made a dull afternoon a bit more fun by reading through it. I wear a lot of jewelry most of the time. I just didn't see anything that wowed me. the jewelry itself will tell you how to show it off.

This book is such a gem, pun intended! The personable and clever writing, beautiful illustrations and inspiring tips and tricks make this the perfect go-to guide for any jewelry lover!

The small book is illustrated quite nicely. The author did not say anything outstanding or original in her text. My biggest complaint is the size of the print. It is really, really tiny. I understand the need to conserve space in a small format but this was absurd.

Neat little book for yourself or as a gift.

Not much information here that is not in free magazines.
