Customer Reviews

"All the chapters conclude with a short section of references and further reading and there is a six-page index at the end of the book. Throughout the book there are colour photographs, diagrams, tables, graphs, flow charts, specimen letters, leaflets and checklists." (BDA News, July 2010)

Clinical Sedation in Dentistry is a comprehensive textbook on the principles and practice of clinical sedation in dentistry, written by experienced educators and internationally renowned researchers in the field. Chapters cover the following key topics: the aetiology of dental anxiety, patient management techniques, anatomy and physiology, pharmacology, patient assessment and selection, inhalation and intravenous sedation, pre-medication and oral sedation, sedation and special care dentistry, complications and emergencies, medico-legal aspects and recent advances. This textbook is aimed primarily at undergraduate dental students, dental care professionals and postgraduate dentists.
