## **Customer Reviews**

This just the best book I read about Social Relationship with Women. If I had this book As teenageet

I would be the king of the Highschool lol. Seriously this book is very interesting to read and really well written. There is no "How to manipulate Women", but if you read this book you will learn how to develop Natural Attraction

Confidence and not giving a crap to women is key! Love this short book... learn from all the areas and keys

Very basic stuff. It takes about thirty minutes to read. Nothing else to really say. You can get the same information by basic web browsing.

nice

This is a great book for attracting women effortlessly. This book has uncovered the inner workings of female psychology and how to unlock a woman's attraction. This book is a very helpful guide for becoming more attractive towards women for a successful girl hunt. With this book, my confidence is boosted towards knowing how to turn female attraction into my advantage. I am excited to perform these strategies right away to see its real effect.

It explained everything I had to do so well and it described everything I was doing wrong. Felt good and more confident after reading it. Loved it

good job

While the subject matter is about attracting women, a major theme is how men are less masculine these days. I enjoyed the passage regarding cell phones. MOST people stop what THEY are doing so that they can IMMEDIATELY respond to someone else's wants.
