Physical Assessment Of The Newborn: A Comprehensive Approach To The Art Of Physical Examination, Fifth Edition

Synopsis

Physical Assessment of the Newborn, 5th Edition, is a comprehensive text with a wealth of detailed information on the assessment of the newborn. This valuable and essential resource illustrates the principles and skills needed to gather assessment data systematically and accurately, and also provides a knowledge base for interpretation of this data. Coverage addresses: gestational assessment, neurologic assessment, neonatal history, assessment of the dysmorphic infant, and systemic evaluation of individual body systems, as well as key information on behavioral and pain assessment, including the use of specific tools with various groups ranging from term to extremely preterm infants. Numerous tables, figures, illustrations, and photos, many of them in full color, are a major strength that enhances the book's usefulness as a clinical resource. The text is an excellent teaching tool and resource for anyone who performs newborn examinations including nurses, neonatal and pediatric nurse practitioners, nurse-midwives, physicians and therapists. It can also serve as a core text for any program preparing individuals for advanced practice roles in neonatal care.

Customer Reviews

I'm enrolled in Vanderbilt's Neonatal NP program & this book is used as the primary resource for our advanced neonatal assessment course. In addition, I've been a NICU RN for 4 years & this book is fundamental for any nurse in this specialty area.

This book is full of information and detail about the newborn and varying physical attributes related to gestational age. Learning so much from Physical assessment of the newborn.

Great condition

Easy to read and follow. Helpful pictures to assist evaluation of newborn. Would buy again

As advertised, just what every NNP student and new NNP needs as a reference.

Extremely fast delivery. Book really was like new as stated in the description.

Great Advanced Nurse Practitioner assessment textbook!!

Arrived quickly and exactly how described. Thank You!!
