In a daily basis, I believe 70 to 80 percent of our expenses goes to food. The bigger the family, the bigger the budget. Most of the time mothers or who ever is in charge of the kitchen, always think about what meals to serve three times a day. Before they come up to a decision, they have to consider a few things like the type of meal, flavor, the nutrition, the quantity and the budget. Most of us think that having a little budget could prevent us from serving good amount of nutritious food. If that's what you think, this book will prove you wrong. From here, you will be able to get techniques that would help you out create delicious, healthy and good amount of meal for every member of your family without spending too much. All it takes is time, will power and the Dump Dinners recipes.

A healthy mind lives in a healthy body. That's why we should keep our body fit & healthy. There is a rumors among us that keeping a healthy body we've to take expensive food or all healthy foods are expensive. I also thought so. But after reading this book, my thought has changed. The author has shown a lots of foods which aren't as much expensive as we think. Besides there are fifty brilliant recipes which i like most. The writer tells everything in a classified way so that it becomes easier to understand for the readers. In a word the book is so informative & useful too. Thanks to the author !

Found a few new recipes, but nothing special. I would have liked to have the nutritional information included with the recipes, but that is just my preference. Still, you could find something you really dig. So feel free to check it out.

I never regret that I got this book. I enjoyed reading it so much while I learned a lot. I love the rice-based recipes because it is budget friendly. My family love it too. I will be trying the "Stir Fry

Shrimps with Green Beans" today. Hopefully it be delicious. Thanks Maggie this is worth my time!

This book gives you a huge variety of tasty dinners (fifty!) all designed to be economical to make, and also easy to cook. Great food, if you want to save money but also eat healthy.

With 4 kids I am on a budget for everything and dinner is no exception. Great ideas to increase the healthy and decrease the spend.

Haven't used any of the recipes yet, but feel it will be a great recipe book for traveling in our motor home.
