Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, has published detailed reference and travel maps of countries, regions, and cities around the world since 1985. The company's titles include many that are unique or the first of their kind.

This was a pretty useless map, other than providing a very broad overview of New Zealand. Even the more detailed map of Auckland came up short. Since most people fly into the airport, it would have been very helpful if the map had extended to that area, perhaps to the expense of Wellington. I thought it was a waste of money as there are ample local maps available through motels and information centers.

Nice map for the city.

met expectations

This was the perfect scale and had many of the sights we wanted to see, already marked--even the B&B we stayed at.

A few items are no longer accurate i.e. skybus route in Auckland but it is overall fine

excellent map of the city.

The GPS didn't always plot the best roads and the map was handy to minimizing time.

Just what we needed for our trip.
