# How To Draw Steampunk Supersize

## Synopsis

Does the challenge of sketching steampunk material leave you in a fog? Feel like an anachronism when it comes to creating old tech out of its time? Be not daunted at depicting derring-do and high adventure! These intrepid illustrators will outfit you with all the brass, glass, and leather you need to make your steam-tech soar and shine – or drip and rust, as the case may be. Stoke the coal, fire up the boilers, and get your art in gear!

## Customer Reviews

Ok I wish I could recommend this book...but I can not. I was lucky to find a copy in a local book store before I ordered it. Boy am I glade I did. If I could I would give the book 2.5 stars. It is not a matter of liking the book or not it is the simple fact that the book is not going to be really helpful to someone trying to learn to draw steampunk art. There is no information on how to develop characters or how to draw basic steampunk objects. It came across to me as trying to jump on the steampunk craze and just falling short. Now having said that I am a professional artist that makes my living from my art. True my area of focus is sculpture but drawing is something I do most everyday. Maybe someone out there will really love this book and that is ok. I just do not think it is going to be helpful to the beginner or the more advanced drawer. Thank you for reading.JJ
