What do they say: KISS - keep it simple stupid. That is what makes this book good. I can imagine kids reading this book and laughing their heads off. It could even do for a first reader as well. From my point of view it missed a 5th star only because I felt a few more simple sketches could have dressed it up rather than have the odd picture.

This knock knock jokes books has lot's of funny jokes for kids who loves this kind of jokes. Although I do not often find such jokes funny in general, but in this book I found a lot of them that made me smile :)

When I was a kid a long long time ago these knock knock jokes were a part of our day. It is good to see somethings continue on in this ever changing world. Loved the pictures included too. Fun book.

Knock knock jokes were quite popular when I was growing up. The jokes in this book are just classic jokes of this type. Lots of new additions and just as funny as they have always been. Nice collection will be fun to share with kids.

A stock standard Knock knock book, downloaded it for free for my 9 year old daughter but it did not pick her interest. Quite lame.

Everyone in the room was giggling. Reading is a great tool and fun reading is a memory for all who enjoyed.
