Karmic Palmistry: Explore Past Lives, Soul Mates, & Karma

Synopsis

Explore past lives, discover soul mates and spirit guides, and gain insight into your karmic potential with the help of Karmic Palmistry. Written by an expert with over twenty years of experience reading palms, this is the only book that focuses on using palmistry to discover your unique spiritual development path for this lifetime. At birth, both of your palms are very similar, representing your genetic and karmic potentials. As you mature, your dominant hand changes to reflect the direction your life actually takes, while the passive hand shows what you were meant to be. Look at the lines in your own palms. Is the right hand significantly different from the left? If so, you will find this book especially useful. Learn how to identify your karmic talents, gifts, and challenges. Your spiritual blueprint is in the palm of your hand-decipher it, and you can use its guidance to create a successful and meaningful life.Ã Â Ã Â

especially useful. Learn how to identify your karmic talents, gifts, and challenges. Your spiritual blueprint is in the palm of your hand-decipher it, and you can use its guidance to create a successful and meaningful life.

Jon Saint-Germain (Indiana) is a professional palm reader who grew up in a family of psychic readers. He appears at corporate events, on the radio, and elsewhere. His extensive knowledge of magick and the occult led him to become a consultant for The Learning Channel. He is the author of *Palmistry 101* and *Runic Palmistry*. Saint-Germain's interest in palm reading began when he was just six years old. Having learned the ancient art from his mother and grandmother, he soon realized that his family's palm reading techniques were far different from traditional methods. He set out on a quest to find the origins of their palm reading system, and what he found was a mystery-it had been passed down to them generations ago by a Scandinavian friend of the family. But who this person was remains unclear even today, despite the digging he and his family have done.

I have studied palmistry for nearly a decade and I am a professional hand analyst. In my opinion, *Karmic Palmistry* is not a book for beginners or for those who are looking for a dictionary of line meanings and associations. There are other, maybe better, books for those purposes. *Karmic Palmistry* is a book for the intermediate to advanced hand reader who is looking for a deeper understanding of palmistry and looking to add depth and value to what they can offer to others, namely their clients. It's not a how-to book for beginners, it is a discussion of some of the finer points of the art and science that you won't likely find in any other English-language resource, and for that it is invaluable and will always have a spot in my library.

i bid you welcome and merry meet.a very good book for palmistry I found it quite inforative.

great book fast shipping thanks

A serious book dealing with advanced palmistry topics by one of the most experienced and insightful palmists out there. While he covers enough basics for a newcomer, this book is most beneficial for those able to pick up on the subtleties. If you're just learning the craft, I'd suggest one of Jon's other books (*Runic Palmistry* or *A Lovers Guide to Palmistry*) for starters. But every time I reread sections of any of his books, I discover nuances I'd missed before. This is not a book to "read." It's a book to Study!

I picked this book after a friend of mine was talking about wanting to know about her past lives based on her palm. I'm definitely a novice who has been using books and comparison to learn palmistry, so this was a welcome addition to my reading. I wasn't too sure about reincarnation or karma until recently, and I think it really has proven to be a strong possibility. I have since used the information I gathered from this book to tell people the possibility of previous lives, their soul age and their karmic debt (or lack thereof.) They can choose to decide for themselves whether they would like to believe it or not, of course. The only part I found utterly confusing was the reference to the i-ching palmistry toward the end of the book. That will be my next reading once I become more familiar with all the other concepts. If you are familiar with it and would like to know more, it is covered in a large portion of the book. I definitely recommend this to anyone who is also learning on their own, and/or who would like to supplement their palm reading with the addition of these karmic concepts.

Karmic Palmistry explores the connection between Karma and hand reading enabling you to better understand your life. This is the only book I have found which combines these two fascinating subjects. As with Saint-Germain's other book - Runic Palmistry - this new work is well written and as entertaining as well as educational read. It is filled with techniques for the palmist as well as Karmic information. It will help you gain insight into your Karmic destiny and spiritual potential as well as teach you how to give readings to others so they can better understand their past, present and future. Highly recommended!

This book provided an interesting and informative discussion of karma, chakras, reflexology and soul mates. However, it is difficult to use as a handbook or reference for taking up the study of palmistry.

I am a very keen student of palmistry and doing it for 6 years. I have read many books on the subject which are close to 50. This book is a real waste of money. It is like a story book telling stories 90% of the time and giving 10% information which I dare say is true. The author has put up a name synonymous with the great palmist St German to get more people buy this waste of a book. The information in terms of palmistry is so minimum, I could tell all what was in the book in 5 pages. Devil must have struck me when I bought it. I am highly displeased. What a waste of my 10 dollars :(
