More Than A Werewolf (Shifty Book 1)

Synopsis

"My name is Leah, and I never planned on finding the other half of my soul at 19 years old. I didn't think I'd end up co-leading a pack of wolves with said soulmate, either, but as a wolf shifter, I guess I shouldn't have bothered planning my future anyway." Being raised to believe she was a member of the lesser gender in a world where humans and shifters coexist in peace, Leah is determined to change her people's culture. She'll give up anything to do so--even the other half of her soul, if that's what it takes to make a difference. Unfortunately for her, the other half of her soul is a stubborn Alpha, and he isn't nearly as ready to let her go as she is ready to let go of him. Between fighting off shifters and discovering what it really means to be someone's mate, something will change, and it's not the world.

About the Shifty Series: 11 girls... 11 stories. What happens in a world where humans and shifters live together in peace? Well... a lot, actually. In this series, you'll get just a glimpse of it. Each of these ladies is fighting for love and for change in their lives and the world around them. The books each stand on their own as every girl tells her story, and don't have to be read in any sort of order to be enjoyed. With a new love story and happily ever after in each book, this series will show you a new way to view shifters, one you may not have ever considered before. *These books are clean Young Adult/New Adult fiction and contain no explicit content.

The Story Timeline: 1. More than a Werewolf 2. More than a Panther 3. More than a Grizzly 4. More than a Mermaid 5. More than an Otter 6. More than a Cheetah 7. More than a Lion 8. More than a Human (Coming Soon)

Customer Reviews

I liked that this shifter story had a modern twist. We are used to reading about alpha shifters who are dominant and macho but this story let the female main character have "influence" over and above the power of dominance exerted by that main male character. Without giving away the plot I think most readers will agree that the whole alpha has the power and wimpy woman needs help has been over done... This story was different in that both characters share the power of the pack and really take the time to fall in love with each other. Its not all one sided as so many stories are. I can't wait to read the next stories in the series!

I've always loved werewolf books, and I loved how in this one, they weren't hiding from the world. Shifters aren't hated or anything, which was cool. Leah and Ty's romance was adorable! There was romance, but there was also a plot, which I loved. This book is aimed more towards teenaged girls, but I would recommend it to anyone who loves a good werewolf book.

I like reading books about shifters and the like. The path she took with this book its different from most I have read. It also makes you think about your own relationship and to remember to treasure and enjoy each other and the time that you have together.

I've read a lot of werewolf books in my life time but this gave a whole new perspective on the shifter life

I LOVED THIS BOOK AND HIGHLY RECOMMEND THEM TO EVERYONE.

liked it kept me reading ready for more than a panther

I don't normally write reviews. But this book made me want to write one. Here's the thing. The writing isn't bad. Actually, I like the writing. I'd be willing to give this author another shot, but NOT with this

series. Here's why. This book is all about women being equal with a man. It's about a woman being treated with respect. Which I am obviously all for. But when I say EQUAL, I mean EQUAL. In this book, the woman is "getting" everything, but she's giving NOTHING. As a married woman, I know that is not how a relationship works. You have to both give. I feel like the guy was giving everything for her and all she did was complain about how he didn't treat her right. Which was a load of crap. The thing is, I was willing to overlook this. I was willing to read the next book. But then I went to the author's website. What book is she on now? 10? 11? And there was a note from the author talking about the couple in THIS BOOK had broken up, but were going to get back together. I'm sorry, but NO. If the couple doesn't have it together by book 11, I am NOT sticking around. Sara Summers, you are a talented writer. Don't give up writing. What I am writing is all said in hopes that your next book series will be a little different.

I'm sorry. I wanted to like this book. I really did because the writing is decent and the plot message noble. For that reason alone I gave it 2 stars instead of 1. But I couldn't even finish reading it. The character and plot development vastly missed its mark for me. I'm assuming the writer was hoping to portray a strong, inspiring heroine at the forefront of a gender equality feminist movement. What came across however, to me, was what most consider the typical millennial temperament. Entitled, whiny, narcissistic, and for lack of a better word brat. She was missing the internal fortitude you'd want a heroine like this to possess. Overall it was a good try on a good concept but when you get to 50% of the book and you still dislike the characters and are so uninspired that you truly couldn't care any less what happens to them in the end, it's time to cut your losses and move on.
