Seven Principles to Power Extraordinary Results At a time of intense competition, low barrier to entry, and lightning-quick brand recognition, leading nonprofits are building more value-rich branding programs. They are proactively creating business models that bring their brand to life in the hearts and minds of their stakeholders. *Breakthrough Nonprofit Branding* demonstrates how a constituency-focused, compelling brand can revolutionize an organization and the way people view and support it. As practiced in real life, most nonprofits define "branding" as their visual identity produced to aid in awareness and fundraising. However important logos and trademarks are, this limited perspective leaves a significant amount of value on the table. Visionary, mission-driven organizations recognize brand as a bigger canvas for their work. To them, branding is the daily expression of their purpose and a way to communicate their promise to stakeholders. Their brand is their trust mark; their commitment to consistently deliver on who they are, what they stand for, and their unique benefits. Drawing on their combined seventy plus years of experience in the nonprofit and corporate sectors, the authors studied eleven visionary nonprofits to reveal the seven principles for transforming a brand from ordinary trademark to strategic competitive advantage. The groups profiled reflect a variety of sizes, breadths, regions, and issues. The common thread is that their brand work has resulted in greater social impact and vibrant growth. Through the use of case studies, *Breakthrough Nonprofit Branding* reveals how: A nonprofit put its renewed brand to work to propel its organization forward; despite inconsistent community support Renewed brand meaning heightened stakeholder commitment, stabilized an organization's financial position, and empowered it to weather a roiling economy A small organization's brand campaign resulted in exceptional growth A re-brand transformed a nonprofit, enabling it to expand from a regional to national footprint One of the largest nonprofits lost momentum and regained direction through a revitalized brand process *Breakthrough Nonprofit Branding* shows you how to create a brand that creates unique value, builds deep relationships, fosters loyal communities, and increases social impact. It offers a practical road map and essential tool for nonprofit leaders, board members, and volunteers, as well as communications professionals, development consultants, marketing agencies, academics, students, and all those interested in catalyzing dynamic results for the organizations they serve.

Praise for BREAKTHROUGH NONPROFIT BRANDING "Nonprofit organizations have to realize they are competing for mindshare not only with other nonprofits, but with for profit corporations as well. The keys to success are in this book, and practical tools and advice will jump off the pages to advance the missions of organizations both large and small." ;Cass Wheeler, Strategic

Consultant and retired CEO, American Heart Association "Breakthrough Nonprofit Branding guides nonprofit organizations to think beyond branding as a logo and a tagline and gives them a clear road map for capturing the minds, hearts, and hands of their audiences. This must-read book is filled with examples, checklists, and practical tips that will help large and small nonprofits have greater social impact." *Beth Kanter, Beth's Blog* and coauthor of *The Networked Nonprofit* "Finally, a book on branding for nonprofits that encompasses a holistic approach! It can help organizations of any size practice breakthrough nonprofit branding to differentiate themselves, gain more supporters and alliances, rally communities, attract strong executives, engage more volunteers, and improve their sustainability. It offers tools and excellent case studies that demonstrate success in the field. The organizations that embrace the authors' seven principles can experience exciting change and growth. So, what are you waiting for?" *Elaine Fogel, President and CMO, Solutions Marketing & Consulting LLC; Chair, American Marketing Association Nonprofit Special Interest Group* "Every organization has a brand and this book clearly, compellingly, and in a very straightforward manner demonstrates how the brand of a nonprofit is crucial to its capacity to grow, to be sustainable, and to fulfill its mission. Branding is demystified and presented in practical and easy to adapt components that will help you maximize your potential and your results. Whether your nonprofit is large or small, local, national, or international, the case studies and examples in *Breakthrough Nonprofit Branding* ensure it is relevant to every reader." *Andrea McManus, CFRE, President, The Development Group; Chair-Elect, The Association of Fundraising Professionals*

Carol Cone, recognized internationally as the mother of cause marketing, once recounted to an eager group of MBA students how she shared a stage with the Dalai Lama. She described how you could relate shared themes of connectivity, collaboration, and compassion to their very different spheres of work, and how companies and their brands aligned with a core purpose could change the world. Ms. Cone and Jocelyne Daw bring the "brands can change the world" spirit and their collective know-how to *Breakthrough Nonprofit Branding: Seven Principles to Power Extraordinary Results* (The AFP/Wiley Fund Development Series). It is an important book, both instructive and inspirational on many levels. There is a lot to learn about branding, and what that really means, for example, the rational-emotional-engagement dimensions of a brand and how brand meaning serves (or should serve) as an organization's central operating principle. I especially liked the chapter on brand communications and new media tools that socialize brand meaning and tie into business objectives. (Point of disclosure: I work for an Irish internet company, "ammado,"

whose global engagement and giving technology is designed expressly for this kind of purpose.) The chapter on brand communications/Principle 4 is representative of the many levels on which the book operates, presenting an overview of the principle, specific how-to success factors (detailed in an exhaustive checklist), and real world experiences of selected nonprofits. It is in the case studies of these exemplary nonprofits that the book's inspirational tone shines through: from the story-telling power of one woman's fight in the "Go Red"/American Heart Association campaign, to Komen for the Cure's voice of empowerment for women, to Goodwill's daily contribution to community enterprise and personal development. The cumulative effect is a book that goes to the heart of nonprofit leadership and how nonprofits drive social change, and stands squarely as a valued resource for successful change management in any sector. For all of these reasons, *Breakthrough Nonprofit Branding: Seven Principles to Power Extraordinary Results* (The AFP/Wiley Fund Development Series) has a wide natural audience of readers who, through their work, daily lives, and values are making a positive difference in the world we all share.

Whether or not you are running a non-profit, or work in the private sector- this is a MUST READ. The principles in this book that drive breakthrough brands could serve as a powerful lesson to anyone looking to build a community, engagement, loyalty and trust in the marketplace. Additionally, the power of cause marketing as illustrated by Carol Cone is more compelling than any advertising tactic or publicity stunt. Authenticity in this day and age cannot be bought, it must be earned and these brands have earned their place in the hearts and minds of their customers. The writing is exemplary and it was an enjoyable read. The only thing better would have been a semester of study with the authors. I'm anxiously awaiting the sequel.

Interesting case studies with some very practical guides included.

The entire book seems to be about Susan G. Komen. Ok, ok, got it. Boring. Any other examples?

I don't read many books anymore. Social media has ruined me. Give me the 140 character summary. But I knew I would read a book by Jocelyne Daw and Carol Cone. I've been learning from these two women for years. For background, I'm a local, transactional cause marketer at a Boston hospital. If you're a cause with a corporate partner I'll show you how to raise money with register programs and cause products. I'll help you enhance those efforts with special events, social media and location-based services. But what I do has limits. And through the years I've grappled with how

nonprofits can shift to truly transformative cause marketing. I even posted about this recently and enviously explained how some cause brands are like magnets that attract power, partners and money to pursue their worthy missions. But how do they do it? Breakthrough Nonprofit Branding has a lot of good answers. BNB identifies seven principles for evolving a cause brand from something ordinary that has no pull to something powerful and really serves the cause. The best part is the 11 case studies the authors use to illustrate the principles, which really bring them to life. My two favorite causes profiled were UNICEF and the Food Bank For New York City because they both reminded me of my own organization in some way. UNICEF reminded me of my hospital because the initial research done on the brand revealed that people were unsure what UNICEF stood for. I think the same is true of my hospital. Sure, we're New England's largest safety-net hospital, but what does that really mean? Some key takeaways for me from this section were:

- * Research is key. If you have to figure out where your brand stands before you can chart a course for it.
- * The value proposition of your brand has to be simple and actionable. UNICEF: Whatever it takes to save a child.
- * Identify and label your core supporter community. For UNICEF it was empathetic globals, "people who care about the developing world and feel very strongly that people and the government should do much more to help those in need." The Food Bank For New York City had me thinking of our food pantry that this year will serve 90,000 men, women and children-nearly double the mouths we fed just two years ago. Again, as with UNICEF, research revealed that external audience just weren't sure what the food bank did (its original name was Food for Survival). Two of the key lessons from their rebranding included:
- * This process begins at the very top of the organization. The board and senior management must be fully engaged for the rebranding to be successful. I really admire the food bank for the courage it took to admit that things weren't working and the cause needed a change.
- * To be a breakthrough brand you have to be bold in your goals. It wasn't enough for the food bank to focus on food delivery and 1,000 food pantries and soup kitchens they supplied across New York City. As the authors note they had to shift to the "higher-order, more compelling cause of addressing hunger and food poverty for New York City system wide." Yeah, the vision thing that stirs donors' ideals and giving. After learning all seven principles and seeing them in action with 11 causes I gained a new appreciation for just how important (and demanding) rebranding is for a cause. It's a pilgrim's journey full of meaning, reflection and uncertainty. The trip is not for the fainthearted nor for the solitary traveler. Fortunately, in the uncertain waters of nonprofit branding, we finally have a compass and a companion in Breakthrough Nonprofit Branding. Joe Waters@joewaters[ÃƒÂ¢Ã ¬Ã Ã¶]
