Sacred Yantra Coloring Book (Dover Design Coloring Books)

Synopsis

An ancient Hindu symbol used to focus the mind during meditation, the yantra is a sacred design — similar to a mandala — that represents the universe. Each of these 30 vibrant images radiates from a central point and features a dazzling combination of interlocking geometric shapes, stars, lotus blossoms, and other entrancing figures. Â

Customer Reviews

Lovely designs. Very soothing.

Great looking, complex, and imaginative designs to color. Paper quality is good. The only thing is that designs are printed on both sides of paper and if I wanted to take out the designs when I am done coloring them and make an art collage with them I will miss the designs printed on the back side. I do realize that I could photocopy the designs on a thick paper and color. It might be a bit of a hassle. Overall a very good book to color for adults.

I agree with some of the reviews...I guess I didn't read the recent ones before I ordered. There are only 2 Sacred Yantra pages to color only one true one. Very misleading title shame on the author and Dover. I have never written a negative review on but decided I needed to write this one. Very

misleading title!!!!!!

When I am upset I grab this book or a page from this book. I sit down with ultra fine markers and can sit for hours and just think about how I want to change the situation and me. I can not change the others. This book helps. If you want an easy book for coloring, this is the wrong book. If you want a book for reflection and thinking, you have the right book. I love this book! Can't wait for the next one to come out!

This book has nice designs in it, though most of them are not quite as complex as the one on the cover. The printing is double-sided, but the paper is very thin. Good quality artist pens leak through, ruining the design on the other side of the same page. However, they don't seem to leak through to the next page. I would suggest possibly making copies to color rather than coloring in the book if you're using a quality medium.

This book contains quite an assortment of designs which can be colored by crayons, markers, pens or pencils. I prefer using gel ink pens and the choices of smaller closer lined designs are plentiful as well as larger ones for markers, etc. Only drawback is a design is on both sides of each page. So sometimes the ink soaks through and both sides cannot be finished.

Love it! Nice paper stock, great designs to work on!

These remind me a bit of the Pinwheel Designs book by Stegenga. Some of these are a little less complicated, but most are very involved. Yantra's are similar to Mandala's. That's what this book says anyway. There are little titles at the bottom of all designs that represent beings, philosophies, etc. 30 double sided pages
