## Customer Reviews

It's good and I'm glad I got it, but you need a CD in order to do the lessons and it has no answer key to do the workbook on your own.

easy to follow great supplement

great quality

Ordered this for my daughter, as she's studying Japanese in school. A perfect course-refresher for the summer break. Arrived quickly.

This book is pretty good to learn Japanese with. You definitely want to get some audio from another

source or purchase the audio CDs (I have not tried those). As well, I got the accompanying workbook. Do not get it unless you have some instructions or the lab CDs of some kind. You could still work with it, but there are pages that ask you to write based on what you hear. So overall, book makes it simplistic to learn Japanese and ease into the alphabets, but be sure to get another source for audio learning.

My daughter used this for her high school Japanese class. We purchased it so she can keep up with her Japanese, and I'm now learning as well. It looks like a great textbook and I'll be using it soon.

Awesome book.

I did not realize I needed the CD for this so I just wasted my money for nothing.
