Customer Reviews

It shows what one expects to see and gives some insight into what it is and how it came to be. I used it a lot on my cruise down the Rhine River on a Viking cruise.

Very poor quality. It looked like something my grandchildren could have prepared. If I was looking at this in bookstore I would not have purchased it.

Not at all what advertising implies. Looks like it was copied type written pages poorly copied. No pictures and wasn't useful as a guide book unless you wanted to know what it was like in the 1920s.

Like a xerox copy of uncopyrighted material. Interesting but not what I was looking for.
