National Geographic Traveler: Beijing & Shanghai

Synopsis

This gorgeous National Geographic travel book, filled with copious, useful information and travel tips, guides you to the exquisite sights of Beijing and Shanghai, China's two most intriguing cities. Among its most popular features are cut-away illustrations of renowned buildings, detailed maps, and sumptuous photographs. Broken into chapters, the guide first takes you to Beijing and such famous attractions as the Forbidden City, Tiananmen Square, and Summer Palace, as well as lesser known sights such as the Muslim Quarter, Baoguo Temple, Military Museum, and Fragrant Hills Park. In Shanghai, among the many interesting places you'll see are the French Concession, the Bund, and the fabulous Shanghai Museum. All sights are prefaced by an elaborate introduction to the history and culture of both cities. Extensive sidebars discuss architecture, temples, the Taiping Rebellion, and more. Guided walking tours include the fascinating hutongs and a stroll from Lotus Mountain to Huangua Cheng along the Great Wall. And a hefty Travelwise section, including hand-picked hotels and restaurants in each city, rounds out all the vital information you'll need to make your trip a success. Completely updated and revised, this new edition includes new experiential sidebars, insider tips from National Geographic experts and others, as well as a useful "charting your trip" section that helps you plot your upcoming trip.

PAUL MOONEY, an American freelance journalist and author of more than a dozen travel books on Taiwan and China, has reported on China, Taiwan, and Hong Kong in leading publications around

the world, including Newsweek, Far Eastern Economic Review, International Herald Tribune, South China Morning Post, and the San Francisco Chronicle. ANDREW FORBES is the author of more than a dozen books on East and Southeast Asia, and has contributed to numerous international publications including The Guardian and the The Asian Wall Street Journal The author lives in Beijing, China; Chiang Mai, Thailand.

I travel quite a bit so I am quite familiar with all the tour guides out there. I reviewed several guides at the local library before purchasing this guide and the DK guide for the same cities. Both books were great and very informative in providing the basic practical information and then getting into the more detailed information on all the sites. I loved all the walking tours provided in this book and it's great for all the "do it yourselfers" out there. The only thing I would like to see improved in this book is more detailed maps of city streets but if you supplement this guide with a GPS smart phone or a detailed map, it is great. Just a note that anything Google or Facebook does not work in China so Google maps may not work here unless they have been pre-downloaded but a few in our group got the maps to download and work.

This book provided everything (and more) that I needed before, during, and after my trip in Beijing and Shanghai. I loved the pictures, quick info, and extra tips. What I loved most is that this book provided a quick summary of each special area in Beijing and Shanghai. I was able to use that summary before learning more while visiting the specific area. For example, I read about the Forbidden City in this book, then learned much more about it while visiting the Forbidden City. When scrapbooking, I was able to use this book as a guide to look back on the highlights of each place I visited.

I would like it to be more up to date, more helpful for tourist to enjoy the trip and plan the trip, and with a decent understanding of things around and what to expect.
