I am very pleased to find these books gathered together in one volume! I can't believe they took "The Books of Enoch" out of the Bible!!! From what I understand they felt it had its place in there for the first 300 years of the Bibles printing! I searched out the Books of Enoch because I was so curious, who was this man so loved by God that he was raptured never having to endure a earthly death? & why so little about this obviously important pre flood patriarch? Well after I read about him I not only had a better understanding of the Old Testament & the ways of God, but all the puzzle

pieces started fitting together!!! Jubilees & Jasher are the icing on the cake adding even more detail to Genesis & The Old Testament!!! I was also a big reader of all the different cultures Mythology's & when you track the time line back you begin to understand who these ancient Gods really were!!! They were the Archon & the other 200 watcher Angels that rebelled & the by product of their blasphemous union the Nephilim! Ancient Astronaut promoters claim we are a species with amnesia this is not so!!! It is all recorded in our Bible & the ancient Mythologies!!! They wonder how the ancient Megalithic structures were built with such high technology & wonder about the ancient mystery schools of Hybrasil & Lemuria & Atlantis & the lost continent of MU? Well its all here in these Biblically indorsed extra text!!! The most ancient writings "The Epic of Gilgamesh" mentioned that Gilgamesh sought out the man who built the Ark & met the son of that man, in ancient Hebrew this was probably Noah's great grandson that found the Archon stones & taught Gilgamesh how to become a giant & bring the Nephilim back into the world. These Books have done more for me to understand scripture more than anything else & I would love to see them back in the Bible! To have all three Books collected in one volume is a real treat! These Books help you understand why God was telling the elect to kill every man woman & child, God wasn't into genocide there was much more going on back then, it was a seed war!!! A war on genetic highbred's, a Cosmic Chess match with God trying to cleanse mankind & Satan trying to corrupt man's genome to prevent the coming of our Lord & Savoir!!! When you read these books & The Bible & factor in different country's Mythology's it all makes perfect sense!!! And since Jesus said "At the end of days it will be as in the days of Noah." It makes these books great reading & applicable to current events!

I am finding this book interesting, that is the issue. I begin a Chapter only to discover that it ends abruptly midsentence. Often the Chapter is only that one incomplete sentence. I ordered the digital version for my Kindle and am having great difficulty reading it due to this. I would like to return this book due to this and hopefully get a refund and be able to purchase a copy that is complete.

Book came very very quick, impressive. It's a very slim book with small print. They need to remake this book with the bigger text. It's strenuous on the eyes and hard to read.

had it on kindle, but had to have the book, very vital for growth and important prophecies in these books

This book is a must have for truth seekers like myself. The books of Jasher gave a very historical

account of the old Testament that the book of Genesis left out. The book of Enoch did the same especially with detailed accounts concerning the fallen angels and watchers and their half Angel and half human giants called Nephillims. This is a great book. Please get it!

Jubilees and Jasher are very easy to read and do fill in the back story to the Bible nicely. Enoch is a wealth of information but much harder to read. Enoch does cover the info from Edan to Noah fairly complete. All the print is sort of small

The book is in gr8 shape but someone should have warned buyers that the print is microscopic. I don't know how I'm going to read it.

This review is for the print used, not the book's content. Very interesting read, but find it in larger print format. The print is way too small. I had to use 3x magnification readers to read this before I finally gave up.
