The Designer Says: Quotes, Quips, And Words Of Wisdom

Synopsis

The Designer Says is a compendium of quotations from more than one hundred of history's leading practitioners. Paired on page spreads like guests at a dinner party, a designer from the nineteenth century might sit next to one working today or two contemporary designers may strike up a conversation. Customer Reviews

"If you're in a rut, questioning your life choices, or just want an engaging read, crack open The Designer Says: Quotes, Quips, and Words of Wisdom (Princeton Architectural Press) for 'salient advice, opinions, and wisdom' from more than 100 contemporary and historic designers. This compendium consists of attractive spreads that pair two designers' quotes side by side to create 'mini-conversations' that will encourage you on one page and make you snicker at the candor on the next." -- Print magazine

"When a flash of inspiration is needed quickly, sometimes all it takes are a few well thought out words to light the fuse. This handy little book collects quotations from over 100 notable designers who over the years have shared helpful, irreverent, and debatable tidbits that might help any creative get a new perspective on a project. Saul Bass, Irma Boom, Chip Kidd, Ellen Lupton, Herman Zapf--the all-star list of designers whose words are typeset on these pages is impressive, covering the spectrum of visual communication." - Imprint

"Inspiring witticisms, quips, and pearls of wisdom of some of the world's best graphic designers." - FastCoDesign

yesteryear's most celebrated graphic design minds." - Brain Pickings "Handsomely bound and stylishly typeset The Designer Says is packed to the rafters with the wit and wisdom of luminaries from design disciplines.... Just buy yourself a copy -- or surprise the creative you treasure most." - Ace Jet 170 "Each spread pits two designers against each other on a given theme, creating a mock dialogue in the process. As they debate the utility of the grid system, the problem with money and the importance of authenticity, their wisdom comes across in gorgeous type and succinct humor. Published by Princeton Architectural Press and compiled by Sara Bader of Quotenik, the pocket companion makes for an inspirational reference with words from the likes of Saul Bass, Stephen Doyle, Milton Glaser, Chip Kidd and Paula Scher." - Cool Hunting

I purchased this book as a motivation tool for myself and my design team. Although it includes a retrospective from famous designers throughout design history (skewing more print design than anything), many of the challenges designers face today are represented. The quotes are kept general enough that they could easily apply to situations that UX/UI designers run into on the web just as much as with publication designers in the print world. To really make this an outstanding value (a 5 essentially), I would have loved to have seen more context around each quote and perhaps an appendix with references to other materials. Another nice addition would have been a section at the end so that design directors like myself can jot down our own musings over the years to really give it personal appeal. All in all, it makes a good reference book and/or gift to any design inclined person in your life.

I keep this on my desk at work. If I need a quick inspiration, I open it up and read one. It is a nice little piece to keep around.

Always fun to read what other designers have summed up by their experiences. I enjoy quotes in

general so that justifies buying this book for me. haha

Amazing quotes, this book really sheer me up when i'm down or out of inapiration.

This book is filled with a so narrow view of a designer, definitely the editor has no idea of what design really means.
