GURPS Blood Types (GURPS: Generic Universal Role Playing System)

Synopsis

Vampires. Immortal and nearly invulnerable, their mystic powers and supernatural servants protect them from danger. They thrive in the darkest hours of night and haunt the dreams of every culture and every age of man. Some merely crave your blood; others drain the very essence of life, leaving you an empty, bitter husk. And they always thirst for more . . . GURPS Blood Types is a look at the vampire in legend . . . and, yes, in history... through the centuries and around the world. It explores dozens of vampiric types, from the traditional Gothic aristocrat to the bizarre African adze to the enigmatic Albanian vyrolakos . . . usable as foes, allies or player characters.

I was a little disappointed as I was hoping for more stuff on playing a vampire hunter. Instead there is almost none. Nore did the vampires of my homeland show up. But for a sourcebook for DM's it could be very useful.

Love the variety of different vampires, both from all over the world and from the worlds of fiction.

Even though this was written for GURPS 3e it is still the best Vampire reference book a GM can have in his library. About every variant of the vampire described in myth, literature, and film than one can think of is represented here regardless of it being Dracula (Gothic), the being from Lifeforce (Alien), Boris Karloff's Wurdalak from Black Sabbath (Vyrolakos), Demonic (Succubus), or the "traditional" European vampire (Vampir). Of the 47 different "species" of vampires listed 30 are

actually described in 23 listings (several are simply different names for the same type of vampire). Each description gives the origin and habits of the vampire as well as its strengths and weaknesses. Even if you don't play GURPS, Blood Types is still the best all around reference on Vampires.

I am a fan of Vampire the Masquerade and the GURPS books. The background info in this single book is far more interesting and the Vampires more versatile than in V:tM. If you haven't read it, I'd suggest you at least pick it up and give it a try. Highly valuable for GURPS GM's.
