This book might have great suggestions for things to do and see in Croatia. It would be helpful if the book were split into sections according to the cities or if there was an index or some sort of organization. It is possible to use the search function in kindle to search by city name but I still think that more organization would improve the book.

I have purchased eyewitness travel guides for three countries now and they haven't let me down yet. Very informative and detailed

This book is the best I have perused up until now, since it stacked with an abundance of data to enable us to arrange our trek. It would have been decent if pictures were incorporated, especially of the notable locales that were expressed, particularly Roman field and sanctuaries.

An excellent travel guide that feeds you with ideas on how to enjoy your trip in the coolest forms ever. As a traveler, books like this are always see on my book shelf and according to my niece this book seem one that she finds interesting the most because it was well written.

Would be nice if it had some structure. Some logic in the listings and more references needed.

Best travelling guide..... The author describes each and every information about thatvplaces in a very understandable way....

This book is no more than a literal list of things to do. It should be a website article, not a printed book.

Great to carry with you. Gives you the highlights in a very use friendly way. Perfect book for traveling to Croatia , small, concise, and easy to follow. Great to carry with you. Gives you the highlights in a very use friendly way.
