The folding edges of this map were cleverly designed. The whole map is laminated and at the points where the map folds there's a break in the map so only the clear plastic lamination folds. I thought it was kind of weird at first to have breaks in the map like that, but then I realized that this way would keep roads/towns on the creases from becoming hard to read over time, and I think that's pretty clever. The front of the map has central MD and DE, the back has the panhandle and some city insets. The map isn't terribly huge, so there's not really much detail beyond the main roads, but since that's what I wanted I'm ok with that.

I love the map!! use a dry erase marker to plan your route and then whip clean this is a great idea

Gift for wife at Christmas and she loved it. Plastic covered and definitely easy to fold as advertised.

This map gives an overview of main roads and no back roads. I need a better more detailed map and will continue to search for one.

A bit smaller than I expected but enough detail to work for the office.

Handy map. Good backup for my GPS

easy to use

easy to fold, looking forward to many road trips.
