Customer Reviews

Text: English, French (translation)

This unique selection presents the essential elements of Sartre's lifework -- organized systematically and made available in one volume for the first time in any language.

GREAT READING!!! Sartre a must to understand, this book takes you there.

Comparatively speaking, Desan's book is quite antiquated. There are other newer, flashier books on Sartre available. Having read most of them, Desan's book stands out uniquely. For the individual new to Sartre this is a must read book. Others, certainly, may be tackled. However, the place to start is here. Taking Sartre's book "Being and Nothingness" as his guide, Desan slowly unpacks the dominant themes in Sartre's difficult, revolutionary, deep, dense book. Recommended highly.

(I was introduced to philosophy through the work of Thomas Nagel and Jean-Paul Sartre.)An excellent introduction to Jean-Paul Sartre's work, both chronologically and conceptually. Sartre has

much to say about everything from love and art to consciousness and personal identity. His insights are profound and in many ways have much relevance to every day life. I would recommend his work to anyone, but especially philosophers, psychologists and ministers/priests.

The "look inside the book" feature shows you, not a different version of the same book, but an entirely different book (with the same title). The Vintage book is an anthology of Sartre's writings. The Open Court book is an anthology of papers about Sartre, and is the entry in their "Library of the Living Philosophers" series. The latter book is excellent but you won't get it by ordering this book.

This volume contains exceptional philosophical articles on the philosophy of Sartre. It covers every and all aspect of his life and thoughts. The critiques pull no punches and omit nothing. This work takes a hard look at the soundness of Sartre's philosophy. To find out if they hold up, read this volume. p.s. The interview with Sartre during his later years is worth the price of the book alone. If you like Sartre, you will love this book.
