This is a good book to put on a book shelf and refer to when you have a question about a saying or term. I wasn't totally impressed—half of the sayings in the book I had never heard of, which limited its usefulness to me. Of the ones I did know of, the descriptions seemed likely, although I know of no way of telling with certainty. If you want to buy it, it might come in handy for trivia questions, or just general knowledge

This is time only the second time I have ever given only one star to a book. I was so disappointed in it. I was expecting more history and substance behind the clichés and expressions, but this book just didn't deliver. I have another book "New Yawk Tawk" which gives the source of different NY terms and their meanings. Maybe that is the problem, I was looking for another book like that one. I may be coming down hard on this book for not meeting my expectations, but I honestly would advise people not to waste their money buying it. I am sorry, but I have to be honest.

This is a fun and fascinating book to read! We put it in our guest room for recreational reading and guests told us they have enjoyed it as well.

This is a good books for facts of why w e have so many sayings. Enjoyed it much.

The answers to Questions about certain words that stuck in my mind. Worth a read.
