Medical Coding Icd-10-Pcs (Speedy Study Guides)

Synopsis

Medical Coding ICD-10-PCS is the newest procedure coding system. There are a total of 72,081 codes included in ICD-10-PCS. Each of the seven alphanumeric characters used in each code represents something specific. A chart would be very beneficial in trying to decipher what each code's letter or number represents. For example, the first number of the code represents the type of service that was rendered. Other characters used represents a body system, body part or region, root operation, etcetera.

Customer Reviews

To many codes are crammed into such a small format. Would need a magnifying glass just to read it. Would not recommend it

It was not very easy to see on my Kindle. The image in the entirety is too small, but the gist of it is what I needed, so I will give it 3 stars!

Again, I haven't needed to use it yet, so I am not sure helpful it will be

All of their guides and books so far have been excellent even for beginners. I have several of them already and found so many more on . I use many of these myself and have several people that ask about them because I am also a college student and these come in extremely handy. They have several study guides for numerous topics, books of all types such as candle making and aromatherapy. Many of their children's books are great beginners also along with their simple guides of projects you can do at home alone or with kids! I would highly recommend you checking them out on .com to see what you can find to help you! by the way many of these are already free check out their facebook pages too These are not complex guides they are a starter guides for students.

Don't waste your money. This study guide was not helpful for me at all. I would not recommend it to anyone.

Easily laid out study guide. Always worth the money.

I'm sure this has all the information I need, but the print is too small (even using the largest font) to be useful.

Should have known but at least it was only \$0.99. Not particularly helpful as far as I'm concerned. I would not buy again.
