Customer Reviews

Big Ideas Math Algebra 1

Exactly what was expected and in perfect condition.

This book helps my child with basic concepts of math. She has gotten better at math. On the contrary, the book is far too expensive and its very heavy.

great condition

great

:)

Great, would deal with again

Great resource for my Algebra student! I love that the odd answers are in the back of the book as well. Thank you!

This book shows some wear, mostly on the corner edges. Cover is better than described. It's a great textbook. Price was very reasonable.
