KidsGardening: A Kids' Guide To Messing Around In The Dirt With Other

Synopsis

The gardening book for any climate, any time, any kid. Full of activities for indoors and out, it's packaged with seven varieties of seeds and a trowel that is, as far as we can tell, indestructible.

This was so fun I bought three more for few of grandkids. It will be so much fun this summer to garden with them.

This book is so great and so much fun for kids, perfect for giving them a summer activity and really easy for them to follow

Bought as a gift for my granddaughter who is a member of a Garden Club. She finds this very informative.

What a wonderful book to use as a guide in teaching your children how to garden. The illustrations

are adorable and the instructions are clear and easily understood by young gardeners. Don't let the reference to a calendar mislead you (as it did me). This book is spiral bound for easy use and is chock-full of information and fun activites for your children.
