Customer Reviews

I have two other books by the same author. She has a wonderful sense of color and design and her directions are easy to follow. Recommended for anyone who does French ribbon work.

What a beautiful book! Great ideas for the bride to be. There are many ideas in this book that I'd love to incorporate into my own wedding planning. You may want to practice the ribbon styles to perfect them before your big day! ... it's a book that definitely stands above the overcrowded "wedding day planning" section of the book store.

I was disappointed in this book. I found the ideas in the book very old fashioned and most often

ugly. The only good thing about the book is at the back of the book she shows how to make each separate flower. But the craft ideas are a DEFINITE pass.

If you are a Romantic who loves tradition you will definitely like this book. Full of beautiful color photographs and wonderful ideas for making your wedding "special"
