Decent Atlas, but doesn't really label the trails at all. I was looking for better trail markings for the areas I go in the U.P. They are drawn on the map but have no other number identification. Most of those trails are for snowmobiling in the winter and are numbered for that, but they are open to ORV traffic in the summer. Good to have at least something in print. Otherwise, I download the maps onto my tablet from the Michigan DNR website.

If you like out-door activities, this is the book you need for Michigan. Even compared with some of my Dad's personal notes (who was an avid fisherman and spent the past 15 years fishing the lakes/rivers of Northern Michigan) on where to put in on various rivers (fishing), it does a thorough job of covering various rivers.

Not as much a map as it is informational. Very nice for the nature lover.
