Customer Reviews

Colin R. Bruce II is one of the original creators of the legendary Standard Catalog series, and has worked with Krause for nearly 35 years. Thomas Michael has spent nearly 20 years performing in-depth price analysis for Krause Publications numismatic book line. All three are experienced and accomplished numismatists, researchers and avid collectors.

great book ,everthing I need t know about gold coin collecting. Every country that I collect is there, and I can even see ehat I need next, great details,

I needed a more up to date book that covered from 1800 to today and this book was just the item. I

only wish it was in color.

Information was not up-to-date. For example, an uncirculated gold coin was valued at less than its bullion price.

Would not buy this or encourage anyone else to look at. Seemed out of date and did not help me.

PLUS:Excellent guide, good value. One of the essential numismatic guidebooks.Easy to use and well organized. Is an updated version of the venerable Krause Standard Catalog of World Gold Coins (hardcover), except is missing the 1500's, 1600's, & 1700's.MINUS:Pictures are all in B&W, some pictures are poor quality, available only in paperback.Numismatics is a hobby as any other do not expect a handsome return on your investment, at least not a monetary one. Have fun. Good luck.
