Charged me 151\$\$ for "damaged book" the thing was trash when i received it.....its not worth half of that what a joke

This book should be considered for a "young readers" level. After completing (1 hour) you will not have any more practical knowledge on this subject than what you could gain by walking through a casino and observing. At \$61.00 this book is overpriced by \$55.00 when measured against value. If you are serious about this subject try "Casino Operations Management" by Kilby/Fox (best) or "An Introduction To The Casino Entertainment Industry" by Eade.

I needed this book for a college class. The college books store was charging a fortune for it. My teacher told us to look on and it was here and saved me quite a bit of money. Thanks .
