# The Journey Of Frederic Edwin Church Through Colombia And Ecuador April - October 1853

## Synopsis

Frederic Edwin Church (1826-1900), one of the most representative characters of the Hudson River school, used to travel most part of the year to unknown territories with the intention of familiarizing with nature and take notes for his paintings. Inspired by Humboldt - the german humanist and scientist- and his expeditions, he started a journey that took him to diverse places in the world. Among those places, in 1853, he travelled the most exotic and remote places in Colombia and Ecuador. This book is an innovative contribution about his journey and shows for the first time most of the sketches and drawings made along his trip that now are part of the Cooper-Hewitt Museum in New York.
