Gr 5 Up-Concise and intriguing, these entries are arranged in chronological sections ("The Middle Ages, 1101-1460," "The World at War, 1914-1949") that open with an overview of the period and present approximately 25 chapter spreads each on various events and figures of the era. The material covers from the ancient world to today and includes snippets on the success of Alexander the Great, the Viking longships design that was created to ward off evil, Florence Nightingale's response to serving in the Crimean War, the birth of the United States, the Cold War, and space exploration. Each chapter features a box listing key dates and pages are capped by a time line that will keep readers in tune with the progress of change. The numerous color illustrations per page include captioned maps and photographs or (on the pages covering earlier times) illustrations of places, artifacts, events, and people. Each section concludes with a deeper look at the arts, architecture, and science and technology of the time. With an engaging writing style and colorful and informative images, this book will have a general appeal that will extend beyond report usage.--Beth McGuire, Hempfield Area School District, Greensburg, PA (c) Copyright 2011. This edition of The Kingfisher History Encyclopedia features minor updates to the 2004 revision. The text begins with an introduction and an explanation of what is history. The content is arranged chronologically in 10 sections, from The Ancient World (40,000â "500 BC) to The Modern World (1950â "Present Day), and then thematically within each of the time periods. Each section starts with an At a Glance entry, offering a brief overview of the time period via a global map and boxed areas highlighting key events on the various continents. Succeeding entries appear on a single or double-page spread. All of the sections, except for The Modern World, conclude with entries on The Arts, Architecture, and Science and Technology. (The Modern World section concludes with an entry on the War on Terror.) A time line indicating the appropriate time period runs along the top of each page spread and will be helpful for students in tracking places and events. Many entries feature boxed areas highlighting key dates. This text offers a global perspective. Shoguns and Samurai; Venice; Aztecs and Incas; and The Khmer Empire are some of the subjects covered in the section on the Middle Ages. The visually appealing layout includes color images, such as photographs and maps, on every page and features annotations that offer detailed information. The updates in this edition include mention of the execution of Saddam Hussein and the killing of Osama Bin Laden as well as the inclusion of terrorist attacks occurring since the previous edition. The book concludes with an index, acknowledgments, and a "Ready Reference" section, which offers listings of various dynasties, rulers, and popes, followed by a chronological listing of major wars and

a brief list of Internet links for further research. This updated edition would be useful as a homework support for school and public libraries, especially those that own the previous edition. In addition, its appealing and colorful layout and accessible information will lend it to casual browsing by students and adults. Grades 5-12. --Maren Ostergard

The best homeschool reference all in one that anyone could have on their shelves! We have found times, people, places, that our family doesn't even remember learning and is not in typical history books. This is packed and ready for families to use information here to find links on the web, books in libraries, etc to further what they are learning about!

I homeschool and needed an extra history encyclopedia....this book is perfect. So much useful information in it and the pictures are really engaging, the content is well organized and the additional lists in the back (presidents, kings and queens, rulers,etc) is amazing! We love it and use it everyday we study history.

Very nice content and illustrations. I anticipate all of our children using this as a solid reference for their history lessons. I only wish there was a library binded version with cover for protecting dust jacket. I will need to improvise my own so it holds up to wear and tear.

We really enjoy this book as a supplement to our homeschool history curriculum. The pictures are great and the information is well written for children about ages 8-12.

Required homeschooling reference!!

the binding is completely torn away from the book, I should have paid around 5\$ not 16\$

Lots of pictures. Very visually interesting.

Beautiful book! My son loves it and so do I!
