I do not know how big or how many recipes the original Escoffier book has, but this one is most probably not the all-in version. As I read through the book, I somehow found myself losing my way from one category to the other, not to mention that there are lists and indexes that are lacking basic data - which certainly Escoffier hadn't left out when he first wrote the book. However, as a first contact with this great Chef, it's a good start buying this if you do not want to spend more for the full version. Just have in mind that - expect for the hard cover - the rest of the paper used for this version is of really low quality and very easy to be torn apart.

Greatness!!

it is what it says it is.

Then this is a Bible, and it needs to be in your library. Like Carême, Escoffier is a primary root of the French cooking tree, and you simply need the reference available.,

Good

Thank You So Much!

Bought this for my girlfriend who is a chef. It had the desired effect. lol Literally jam packed with recipes. Solid text with no pictures or illustrations that I saw, just thousands of French recipes. Definitely not a cookbook for the faint of heart, culinarily speaking. The chef GF loved it though. Just what she wanted.

So many recipes... so many ideas... it should be in everyone's Cookbook Collection!!! NOT your picture enhanced cookbook. Escoffier is the most celebrated Chef in the world. Worth having this book to use as resource.
