Numerical Partial Differential Equations: Conservation Laws And Elliptic Equations (Texts In Applied Mathematics) (v. 33)

Synopsis

Continuing the theme of the first, this second volume continues the study of the uses and techniques of numerical experimentation in the solution of PDEs. It includes topics such as initial-boundary-value problems, a complete survey of theory and numerical methods for conservation laws, and numerical schemes for elliptic PDEs. The author stresses the use of technology and graphics throughout for both illustration and analysis.

Book Information

Series: Texts in Applied Mathematics (Book 33)

Hardcover: 556 pages

Publisher: Springer; 1999 edition (May 11, 1999)

Language: English

ISBN-10: 0387983465

ISBN-13: 978-0387983462

Product Dimensions: 6.1 x 1.2 x 9.2 inches

Shipping Weight: 2.2 pounds (View shipping rates and policies)
