# The Book Of The Great Queen

## Synopsis

The Book of the Great Queen is the culmination of nearly 20 years of the author's study and practice as a dedicant of the MorrÃ- gan. The intention for the book is to provide a comprehensive and in-depth look at the MorrÃ- gan as we know her through textual, historical, and archaeological sources, her role and cult of worship in ancient Celtic religion, and to provide guidance for the modern devotional practitioner drawing on these traditions. Cover art and illustrations are by Valerie Herron of Mystic Media. Production of the book has been crowd-funded through a very successful IndieGoGo campaign in 2014, nearly tripling the original goal. This case bound edition is illuminated with three full color divine images along with the full color title page and color end papers. The original illuminated calligraphy plate by the author is also in full color while the remaining five images are in their original deep tones.

## Customer Reviews

This book continually feeds my soul. I'm constantly amazed and fulfilled by the depth of information provided in this book. It is clear that the author has dedicated herself to the immense task of putting all of this information together in a way that can be easily digested by the reader. More than that though is the underlying belief and devotion of the author. I feel like I have found a resource that resonates with my soul and that I will derive guidance from for years to come.

I am only 1/4th of the way through this book, but I am enjoying every single page of it!! especially

appreciate the pronunciation guide located at the back of the book. The many references to the Lebor Gabala Erenn, made me think of the norse Eddas..every culture had their sagas.. and while the gods and goddesses may have had different names and associations, in essence, they came from the same Source,in my opinion. For the longest time, I've had a fascination with The Morrigan; not quite sure why, but the answer may lie in the ethers somewhere! ;-) I'm very glad I purchased this book.. despite the price; This is not a fluffy work, but well researched and much care and thought has gone into it by the author, Morpheus Ravenna. My thanks to the author!! :-) P.S. I also appreciate the bibliography -- all those books-- I want! :-)

I am in love with this book!!! The author has clearly done her research and has a personal practice of her own with The Morrigan. For anyone who serves the Great Queen or is interested in her this book is more than a must have. Its like the bible of The Morrigan.

This book is well-written, well researched, and absolutely amazing! I highly recommend this book to anyone looking to learn more about the Morrigan and to anyone wanting to deepen their practice.

Fantastic read!

Great book

Deep. It's going to be a study not a light read.
