What Every Student Should Know About Citing Sources With APA Documentation (What Every Student Should Know About...)

Synopsis

What Every Student Should Know About Citing Sources with APA Documentation provides specific instructions on writing and referencing in the American Psychological Association (APA) style and reflects APA's 2009 updates. This booklet offers an example APA manuscript and also offers exercises to allow the reader to practice using the various components of APA style.

Customer Reviews

I needed this book for class. In my school book store, this book costed about 3 times as much as a I paid on . I rent a lot of my other class books and it costs the same to rent the book as it does to buy it new on so I went ahead and purchased. I was very disappointed at the cost of this book for the size. It is very small, like a small picture frame. And it only has 50 pages. I couldn't believe that I could have spent so much on a book of this size. If you are looking into buying this book, may be your cheapest option.

Served its purpose for my class.

Over all the handbook is good. It would be better if it gave actual examples of what a paper should look like from the running head to the reference page. At does well to explain everything.

Thanks
