## Customer Reviews

Ordered this a few months ago, but with Christmas and daughter's illness, just listened to accompanying cd. It is TOTALLY the wrong music. The label on the cd is correct for Volume 4, but the playlist is NOT what is in the book. The composers on the cd are Mozart, Beethoven, Bach, Clementi. But the composers for Volume 4 are Seitz, Vivaldi, Bohm, and Bach, I'm very disappointed because I was copying it to her MP3 so she could practice for contest when I realized NONE of the songs match her book--thus she has NO accompaniment to work with. Don't know what happened, but it can't be returned this late. Next time I will check immediately!!

This book is a great next level in the Suzuki series for Violin. It has great pieces that are definitely more challenging than the book before it, like the Vivaldi, and truly gives the user space to improve.

The only thing that is quite unfortunate is the amount of songs that are in the book. In the previous books, there are many different songs to play, but in book 4, there are significantly less; this may be because the songs are harder, but it would still be nice if there were more songs to work with. But overall, it is a great book for a student to work with.

I do not understand how the violin book has a piano cd inside the sealed envelop. Am I the only one who got the wrong cd? I doubt it. I bought book 1 through 4 but only book 4 has a piano cd (should have a violin cd). My return window is closed a long time ago because I bought vol 3 and 4 at the same time and did not open vol 4 until I am ready to play vol 4. However, the company made this product should send me the right cd because this is clearly a factory-origin-problem.

Great book. Very different from book 3. They are all concertos. It focus on the bow. The reading of notes is not that hard, the main point of this book is to learn to read the bow and be able to play the song as the composer has wrote it.

The CD is not the correct CD; it is for Book 4 PIANO, not violin. I have now received a replace with the same problem. The service rep tells me this item is supposed to be removed from the site. Better to buy the book/cd locally.

Well, I should have read the other reviews. As others have noted, the CD included is NOT the one that goes with the book. It appears to be from their piano course. The CD is labelled correctly, but the contents are wrong. So I had to return it. I think will have to chase this problem down with Suzuki, and announce it on this page when it's fixed. But you have to like 's wonderful return system!

Excellent product.

What I expected when following the Suzuki style of learning
